

THE STANDARD BY WHICH OTHERS ARE JUDGED

# ROC 2000 SERIES HOISTS

All stages top sealing using a technologically advanced twin lip seal and overlap wiper.

Lower friction seals for lighter bodies

All stages hard chrome plated for greater life

Maximum bearing overlap for maximum stability

Specially developed bearing material, which exceeds load bearing and wear life

Circlip base for simple servicing

**TWO YEAR  
WARRANTY**

NOTE: The number of stages may vary between models

ALL STAGES HARD CHROMED FOR THE RUGGED AUSTRALIAN CONDITIONS

# ROC HYDRAULICS

THE STANDARD BY WHICH OTHERS ARE JUDGED

Let ROC lift your business to the top  
with these quality features...

- BARREL TUBE:** Manufactured from the highest quality precision engineered carbon steel, machined to close tolerances by computer controlled tools to give maximum durability and reliability.
- BARREL SEALS:** Unique seals specifically designed for dynamic applications. Taking maximum advantage of the elastomeric materials available, optimum sealing effectiveness and extended life at high and low pressure is achieved.
- BARREL GUIDE:** Manufactured from select superior bushing material which has been specially developed to exceed load bearing and wear life, also features the longest guide bearing length, for maximum stability.
- BARREL CHROME:** All stages are micro finished hard chrome plated to ensure maximum seal and stage life for rugged Australian conditions.
- SEAL WIPERS:** Developed using advanced technology coupled with extensive field experience, our ultimate wiper seal ensures longer seal life under all Australian tipping conditions.
- SAFETY:** ROC Hydraulics will not sacrifice safety for price.

## PURPOSE BUILT FOR AUSTRALIAN CONDITIONS

The ROC bird of Arabian mythology was an enormous creature endowed with great strength and power. Today ROC Hydraulics continues to offer you the same strength and power.

ROC Hydraulics is one of the largest Australian manufacturers of multistage telescopic hydraulic cylinders, is synonymous with the transport industry and recognised as the leader in this field.

From experience gained serving the tipping industry for over 55 years, ROC are able to compliment the standard range of cylinders with special custom designed products for mining, marine, construction, agriculture and heavy duty industrial applications.
